

JOHN HARVEE L. QUIRIDO

Software Developer | Front-End Developer | IT Graduate

Tarlac City, Philippines | quiridojohnharvee@gmail.com | 09622822446 | GitHub: github.com/superrii

PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate with hands-on experience as a Programmer Intern at the City Government of Tarlac. Experienced in developing web, desktop, and mobile applications using Java, React.js, TypeScript, C#, Firebase, PostgreSQL, SQL, and MySQL. Demonstrated ability to design, develop, test, and maintain software solutions while collaborating with development teams and end users. Passionate about software engineering, problem-solving, and delivering scalable, user-focused applications.

WORK EXPERIENCE

Programmer Intern

City Government of Tarlac

February 2026 – May 2026

- Developed and maintained government information systems based on business and user requirements.
- Assisted in designing, developing, testing, and deploying web applications using React.js and TypeScript.
- Built and maintained database structures using PostgreSQL, SQL, and MySQL.
- Collaborated with developers and government personnel to gather system requirements.
- Participated in software maintenance and continuous system improvements.

PROJECTS

IT Helpdesk Ticketing System

Technologies: React.js, TypeScript, PostgreSQL, SQL

- Developed an internal IT ticket management system for the City Government of Tarlac.
- Implemented ticket submission, assignment, tracking, prioritization, and status monitoring.
- Designed an intuitive user interface to improve IT support efficiency.
- Integrated a centralized database for ticket records and reporting.

Rice Disease Scanner (Web & Android)

Technologies: Java, React.js, Firebase

- Developed a web and Android application capable of detecting rice diseases.
- Integrated Firebase for cloud database storage and synchronization.
- Collaborated with the Department of Agriculture during project implementation.

Smart Farming Irrigation System

Technologies: TypeScript, Supabase, Arduino

- Developed a smart irrigation monitoring system using Arduino sensors.
- Implemented real-time monitoring and irrigation control. Integrated cloud-based database storage for sensor data.
- Improved irrigation efficiency through automation.

EDUCATION

Bachelor of Science in Information Technology

STI College Tarlac

Graduated: July 2026

2022 – 2026

TECHNICAL SKILLS

- Programming Language:** Java, Typescript, and C#
- Web Development:** React.js, Tailwind CSS, and Vite
- Databases:** PostgreSQL, SQL, MySQL
- Mobile App Development:** Android Studio and Typescript
- Tools and Technologies:** Kali Linux and GitHub

CERTIFICATIONS

- MySQL Essentials for Beginners (2024)
- Droid Dash Learn Android Studio (2024–2025)
- Fundamentals of Python Programming (2025)
- Programmer Intern Certificate – City Government of Tarlac (2026)
